SUB: Style of Healthy Longevity

Lifeline400 club presents a “Style of Healthy Longevity” to make people understand easily the biochemical reactions happening in the body and keep them under regulation so as to achieve good health with a longer life time. Lifeline400 club does not believe in magical curing systems and always profess scientific and proven methods of cure. The human body is taken as a body machine which has auto recovery systems that are effective if proper reversible mechanisms are allowed by the body owner. The club offers yearly membership to individuals @Rs.500 (USD20) per family for free consultation for a year.

The Lifeline400 Club professes Engineering Medical system in which all the body systems are analysed based on the engineering principles that allow fitness in all respects by following preventive care to keep blood parameters within healthy range. The individual can easily observe all of his body symptoms and broad parameters such as Blood Pressure, Temperature, Heart Rate, Blood Oxygen and body pH and take corrective action to keep the body in healthy condition. Normally life style changes and naturopathy medical system is utilised in curing body problems. In some cases trade medicines from other medical systems are also used as per requirement.

The program schedule: Following program schedule has been devised for a gathering of 50- 100 persons in a session.

1. Health presentation- 4 hours (including question and answer session).
2. Individual medical consultation for any health problems, normally 10 minutes per person.
